Inauguration of 5-day workshop on “Sustainable Geoenvironmental Practices: Hazard Mitigation and Environment Protection” organized

by IIT Indore in association with Indian Geotechnical Society on 27th March 2023 in online mode. Thanks to Prof. Krishna R Reddy for the support given for the workshop.

INDIAN INSTITUTE OF TECHNOLOGY INDORE
In association with **INDIAN GEOTECHNICAL SOCIETY**

5 DAYS WORKSHOP ON:
**Sustainable
Geoenvironmental
Practices: Hazard
Mitigation and
Environment Protection**

**March
27-31, 2023
04:30 p.m. to
07:30 p.m. (IST)**

About the Workshop:
Rapid industrialization and technological advancement have led to the over-exploitation of natural resources resulting in severe pollution problems. Geotechnical engineering skills integrated with environmental engineering skills can provide a “sustainable solution” for preserving the environment. This workshop is aimed to showcase various Geotechnical and Geoenvironmental challenges and discuss pragmatic solutions and approaches to addressing them. This would add value to the present understanding of different approaches used in landfills, site remediation, waste management, ground improvement, sustainability, and resiliency.

About IIT Indore:
IIT Indore is one of the eight new Indian Institutes of Technology (IIT) established by the Ministry of Human Resource Development (MHRD), Government of India, in 2008-09. Recently IIT Indore has made a new entry and has secured the 396th rank in the QS World University Rankings 2023. For more details, visit: www.iiti.ac.in

Workshop themes

- Landfill management
- Environmental remediation of soils
- Sustainability and resilient design
- Solid and hazardous waste management
- Nature-based solutions for ground improvement
